15:50	<b>Your Clinical P&amp;EOLC Forum and Say Matters! 3 Key Actions from today's Forum</b>	Rakesh Koria Fatima-Ali Rahman
16:00	<b>Evaluation and Close</b>	

**Key Areas of Focus and Issues we aim to cover:**

- 1- *Why is early identification important?*
- 2- *What can we learn from Mathew's incredibly touching journey shared by Andy?*
- 3- *What is EARLY Tool and How can it transform your needs for early identification and Personalised Care Planning with Electronic interface functionality?*
- 4- *What can we learn from our regions who have utilised the EARLY Toolkit successfully?*
- 5- *What are the key patient, professional and population challenges with EARLY identification?*
- 6- *What has worked well for your localities and how can share the best practice speedily?*
- 7- *What are the wider P&EOLC health economy implications and what would help us?*
- 8- *Many other issues you will bring to the session...!*

Please share this invite with ALL colleagues and team in your systems who are involved in P&EOLC regardless of roles or settings, that would find the session useful.

Please register for this unique opportunity if you have not already via [Eventbrite](#).

Thank you and we look forward to welcoming you to the Forum on the day!
