What do you think are our key priorities?

0 1 0

(1/2)

- Best practice Development of shared resources and protocols
- Discussion around some of the intricacies of difficulties
- Share successful frameworks of practice
- sharing good practice around how community treatment is managed, please no speakers I want to hear everyday practice and talk
- Get a clear guideline and agree contributors Determine loosely the geographical area covered by the 'community' Paediatric networking on physical aspects - bone density/DEXA delayed menarche etc
- Please can we coordinate all the different mental health meetings. So many and no coordination. Did the organisers of today know it was my 3rd mental health meeting of the day? Need a bit more signposting so we know what all meetings are
- Care of children on paediatric wards with medically unexplained symptoms

- Need to avoid duplication - marrying local and regional effort. A closer look on community treatment.
 - Invite speakers to talk about their local work Identify list of topics
 - Best practice sharing the implementation
 - Sharing information about topics
 - Learn from each other's successes
 - Pros and cons of region wide vs local collaborations (in terms of this CoP) Need for better communication
- about who is doing what where
 - Shared agreement about how ALPINE moves forward (smaller meeting to resolve tensions)
 - Look together at how we can manage complex eating (ARFID) better

Do you have any suggestions for improvement?

- As shown feedback - we really need a more joined up approach between the multitude of meetings please and regional groups
- Please find out what other mental health meetings are taking place and coordinate as there is excessive duplication
- More regional groups in break out rooms.
- i dont want presentations, it sidelines discussion
